If a software update is required to update your product, please follow the below instructions.
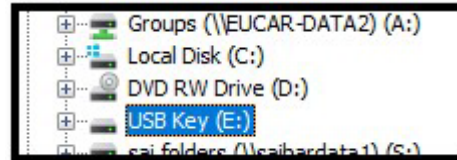

- Download the ZIP folder - V1.0.6.rar
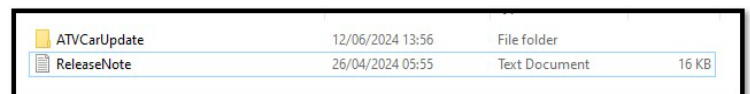

- Format a >16GB USB key to NTFS.

- Right click the downloaded ZIP folder and point it at the root of the USB key.

- Click OK

Once finished the USB key should have the below folder and a file "Release Notes"

Update game software:
- Put into PC and boot.
- PC will update.
- Use on other games.
